Good Experts are Hard to Find

Real Aviation Experience

Our staff is a world-class team of aviation experts that brings practical and easily understood solutions to seemingly complex technical issues.

Our industry credentials are irrefutable and range from pioneering scientific research, to aircraft design and testing, to performing aircraft maintenance.

Our goal is to improve business, science, and technology practices, resulting in increased profitability.

The Right Choice

When you have critical decisions to make, DVI Aviation can help you gain the focus you need in all facets of the aviation industry.

Whether you need technical expert support during M&A due diligence, help in evaluating a new technology, leading edge forensic analysis, or an expert witness..... DVI brings world-class solutions to the table.
